

# TRAUMA NURSING CORE COURSE (PROVIDER COURSE)

jointly organised by

**EMERGENCY NURSES ASSOCIATION, USA**

and

**HONG KONG EMERGENCY NURSES ASSOCIATION**

## Content

**TNCC** was developed by the Emergency Nurses Association USA since 1983 for the needs of trauma patients; as a means for identifying standards of nursing care based on current knowledge related to trauma. The 2-day course **with pre-course online modules** is designed to provide the learner with cognitive knowledge and psychomotor skills for the assessment and management of trauma patient by means of lectures and skill stations; so that he/she can effectively perform as an integral part of the Trauma Team using a systematic, standardised approach to deliver the necessary care to the injured patient. Pre-reading of course manuals is a necessity.

## Course Participants

Registered Nurses should have at least six months of clinical experience in an emergency care setting involving in the management of trauma victims; such as A&E Department, Surgical Units (including Neurosurgical and Burns Units), Orthopaedic Units and ICU/ITU. It is assumed that the course participants have an understanding of emergency trauma care terminology and is familiar with the standard emergency trauma equipment.

## Certification

Upon completion of the provider course and successfully satisfying both the written and practical evaluation, Emergency Nurses Association, USA will issue a TNCC Provider Certificate to successful candidates.
